Mr Frank Spair
Dunn Field
Trenton N. Jersey

Dear Mr Spair:

I have just finished going over the figures for the game we played in Trenton Tuesday, and I am sure you have made a mistake. According to the figures you have deducted 40% for the park rent and help, exclusive of umpires. As one engaged in the baseball business, I know you realize this is a ridiculous percentage.

Of course the crowd was small, which means everyone expected to suffer, but there is no reason why the ballclubs should be the only ones to bear the hardship.

Following are the terms under which we will play in Trenton in the future. If you feel you cannot accept them, please let me know. We will pay 20% park rent and all other expenses plus \$30.00 for lights, or we will pay 40% to the park, and they will furnish help, including umpires, balls and the lights. This means we will take 60 % after the tax. Either of these terms are satisfactory, please let me know which you accept, so I can start arranging for future attraction.

Very Truly Yours
